

Coloured Plastic Dustbin Range - 80 Litre

READYFIX PRODUCT CODES: Z111-428 | Z111-430 | Z111-431 | Z111-432

A durable range of 80 litre coloured plastic dustbins supplied with matching removable lids and metal clip fasteners. Suitable for general waste collection and colour-coded waste segregation on construction sites, in welfare facilities, workplaces and storage areas.

- Metal wire clips help keep the lid secured to the bin body.
- Four colours allow waste streams or work areas to be identified more easily.

Use, care and safety

Position on a stable, level surface and secure both lid clips after use. Do not overfill. Lift using both side handles and follow suitable manual-handling practice. Do not use for hot ashes, burning materials, hazardous waste or liquids unless suitability has been confirmed. Clean with warm water and mild detergent. Colour assignments should follow the applicable site or local waste scheme.
