Cut A General Purpose Glove

Lightweight Smooth Nitrile Coated, Machine Knitted General Purpose Glove with Elasticated Cuff.

Key Features:

- Lightweight and breathable liner provides flexibility and comfort, supporting ease of movement during precision tasks.
- Made with 51% GRS-certified pre-consumer recycled polyamide, supporting environmentally responsible sourcing and manufacturing practices.
- Flat nitrile palm coating gives excellent dry grip, ideal for general handling.
- Excellent abrasion resistance, enhancing durability during tasks such as material handling, assembly, and general industrial use.
- High level of dexterity and tactile sensitivity, helping in tasks where precise handling is needed.
- Ergonomic fit with a design that follows the natural shape of the hand for improved comfort and control.
- Elasticated cuff ensures a secure fit while preventing the entry of dust and debris.
- Colour-coded in keeping with the Traffi System – making compliance, glove selection, and safety simple. A1 cut rating means a red glove.
